MERCURY PLANET

This name was chosen for the planet because it is the one that rotates the fastest around the Sun.

Fast messenger god of the Gods. He is represented with wings on his sandals and a hat.

VENUS PLANET

Venus was considered the most beautiful and bright celestial object in the sky; That's why she took the name of the goddess.

Goddess of love and beauty.

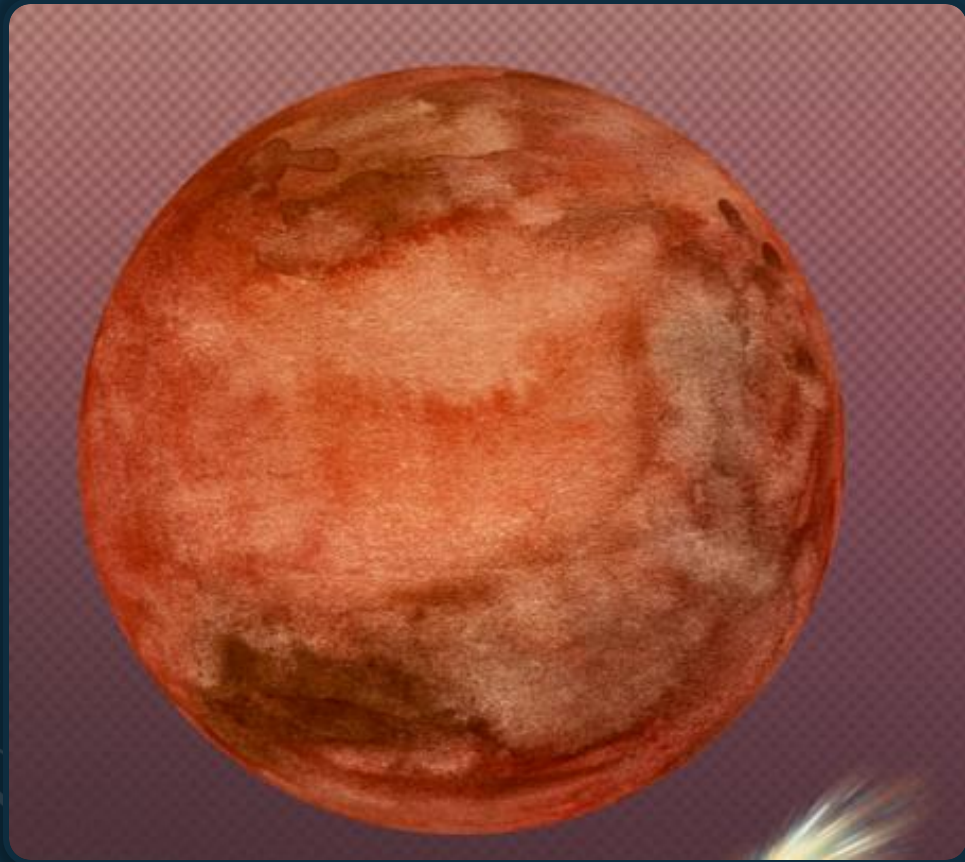

EARTH PLANET

The earth is also the ground we walk on; that's why the planet took that name.

MARS PLANET

“The Red Planet.” It has the highest known mountain in the entire Solar System and we call it Mount Olympus.

God of war, represented with a spear and helmet.

PLANET JUPITER

It is the largest planet and therefore took the name of the main god.

The most important god, the lord of the heavens. Represented with a lightning bolt or sometimes a scepter and an eagle.

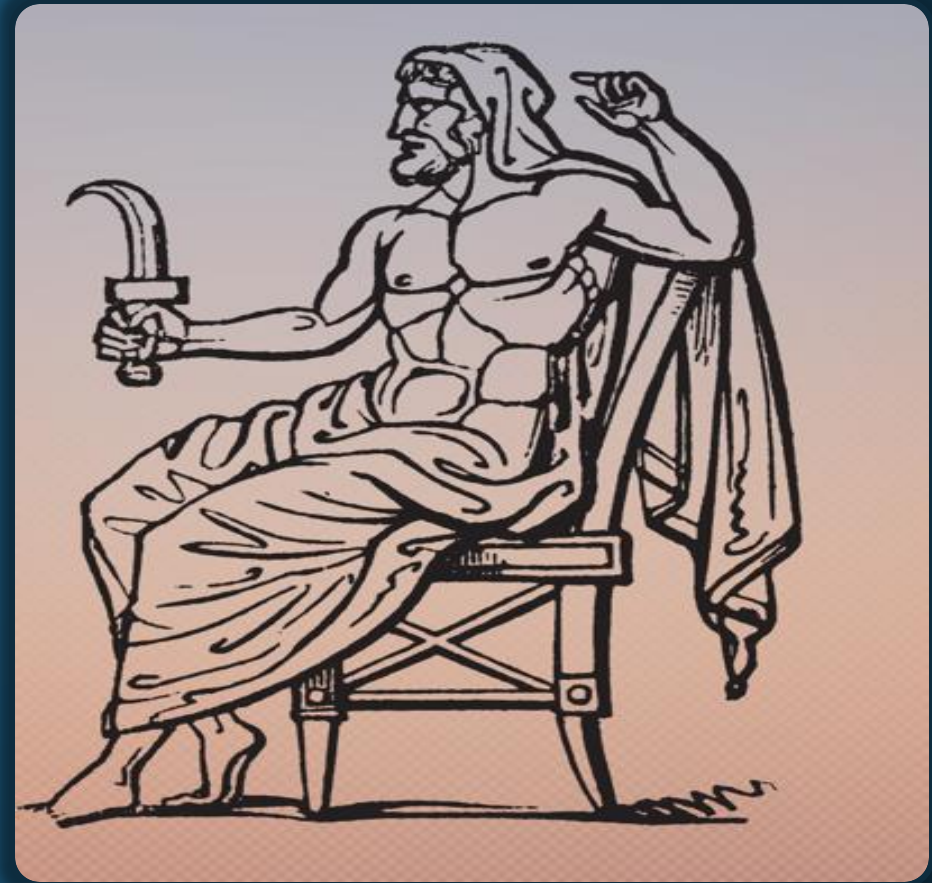

SATURN PLANET

The only planet that has visible rings.

King of the gods. God of time, he devoured his children as soon as they were born so that they would not dethrone him.

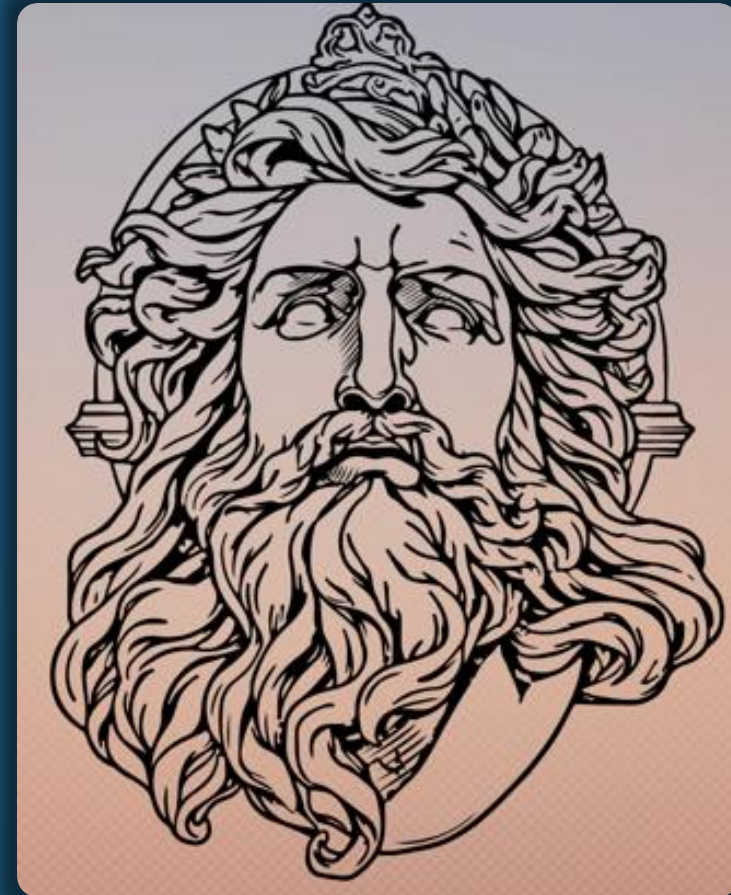

URANUS PLANET

It is the third largest planet

God personifier of the sky, husband of the goddess Earth.

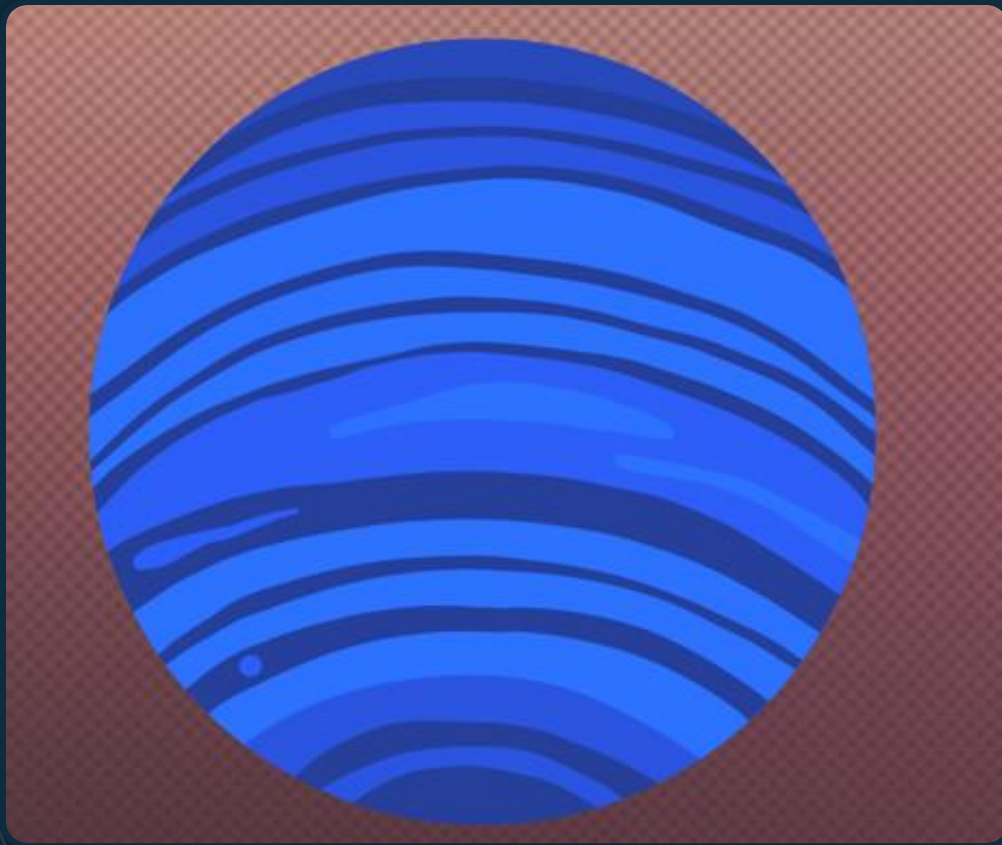

NEPTUNE PLANET

The planet was named so because of its blue color like that of the sea.

God of the sea and waters. Its symbols are the trident and the horse.
